Music Perception's Philosophy

Music Perceptions is constantly looking for new, fresh, ways to teach essential musicianship skills in ways that students will enjoy and absorb. Our goal is to produce proven products that aid ourselves and others in teaching and learning. Music Perceptions produces products that help teachers, students, and parents stay organized and informed; games which are fun and educational; and music that helps students understand musical concepts easier.

Creating and producing materials is very costly and time consuming. It is our passion to create materials which help students become better musicians through better understanding of music concepts. In order to continue creating and producing new materials, plus manufacturing products already written, please DON'T PHOTOCOPY or reproduce materials created by Music Perceptions in any manner without written permission of the publisher.

Shipping & Handling
